

REMARKSSpecification

Applicant herein submits a Substitute Specification. The Substitute Specification differs from the priority document in that 1) section headings have been inserted into the text and 2) a sentence reciting the priority claim has been added as the first sentence. Additionally, a typographical error at page 1, line 24 of the original specification has been corrected by changing "body of or the" to --body or the--. No issue of New Matter is believed to be raised by the submission of the Substitute Specification.

Claims

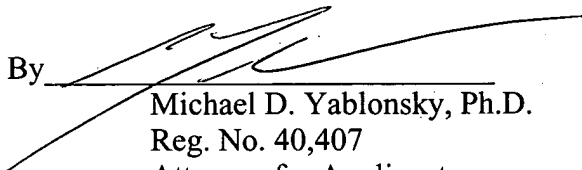

Applicant herein cancels all of Claims 1-8 appearing in the priority document and submits a new set of Claims 1-12 attached to the Substitute Specification. Examination of Claims 1-12 presented with the Substitute Specification is respectfully requested.

CONDITIONAL PETITION

Applicant hereby makes a Conditional Petition for any relief available to correct any defect in connection with this filing, or any defect remaining in this application after this filing.

Respectfully submitted,
